

Weekly Progress Report

Name: HANIFA MEHER

Domain: PYTHON PROGRAMMING

Date of submission: 08/09/26

Week Ending: 02

I. Overview:

This week, the primary focus was on understanding USC_TIA and contributing to Python projects. Additionally, efforts were made to leverage learning resources for skill enhancement.

II. Achievements:

1. USC_TIA Familiarization:

- Explored USC_TIA documentation to grasp core functionalities.
- Successfully executed basic tasks, showcasing initial proficiency.

2. Python Project Contributions:

Name of the project:-

- Contributed code to file organizer with a focus on developing the file-sorting algorithm and automatically creating folders based on file extensions..
- Engaged in effective collaboration with team members.

3. Learning Python:

- Acquired proficiency in essential Python libraries, such as os, shutil, tkinter (filedialog, messagebox).
- Applied Python skills to real-world problems within USC_TIA context.

III. Challenges:

1. USC_TIA Integration:

- Encountered challenges during File Organizer development with **CustomTkinter** and **file-handling operations using os and shutil**.
- Ongoing efforts to troubleshoot and ensure successful integration.

2. Python Project Complexity:

- Faced complexity in understanding **file handling, directory management, and the file-moving process using os and shutil**.
- Seeking guidance to overcome challenges and enhance understanding.

IV. Learning Resources:

1. USC_TIA Documentation:

- Utilized USC_TIA official documentation for reference and troubleshooting.
- Attended relevant webinars and online tutorials to deepen understanding.

2. Python Learning Resources:

- Engaged with Apna College to strengthen Python skills.
- Participated in Python Programming Projects for practical application.

V. Next Week's Goals:

1. USC_TIA Enhancement:

- Address integration challenges and explore advanced USC_TIA features.
- Collaborate with peers to contribute to USC_TIA improvement discussions.

2. Python Project Development:

- Tackle more complex tasks within the Python project to increase contribution.
- Seek feedback from mentors and peers for continuous improvement.
